

World Health Organization Collaborating Centre
for Nursing, Midwifery & Health Development

**Global Network of WHO Collaborating Centres
for Nursing and Midwifery**

Terms of Reference and Collaborating Centre Interview
Analysis 2023-2024

Overview

The Global Network of WHO Collaborating Centres is a community of nursing and midwifery leaders which spans six regions of the world and is proudly partnered with some of the leading global public health organizations. The Mission of the Global Network is to maximize the contributions of Nursing and Midwifery to advance Health for All in partnership with WHO and its member states, member Centres, NGOs, and others interested in promoting the health of populations. In addition to fostering collaboration and communication between members, the network will carry out advocacy and evidence-based policy activities within the framework of the WHA, regional resolutions, and WHO Programs of work, and in alignment with the WHO Strategic Directions in Nursing and Midwifery (SDNM) Policy Priorities 2021-2025: Education, Jobs, Leadership, and Service Delivery.

We aim to use this information to connect subgroups of Centres working within the same topic areas to foster future collaboration and partnership. If the information on your Collaborating Centre in this analysis needs amending, please contact us to update your information.

The data collected in this analysis is confidential, and is only to be used by WHO Collaborating Centres for Nursing and Midwifery within the Global Network.

We appreciate your involvement and support.

There are currently 44 WHO Collaborating Centres (WHOCC's) in the Global Network for Nursing and Midwifery. Most centres are in the AMRO and EURO regions.

Table 1: WHOCC's for Nursing & Midwifery by region

Region	Number
AFRO	4
AMRO	15
EMRO	2
EURO	9
SEARO	6
WPRO	8
TOTAL	44

The types of activities undertaken by WHOCC's vary depending on their respective Terms of Reference (ToR's). Analysis of the types of activities taken place has been conducted with most centres focusing on training and education (n=22) and research (n=21).

Table 2: WHOCC activities

WHO Collaborating Centre Activities	Number
Training and education	22
Research	21
Support WHO in the implementation of WHO programmes and activities at country level	14
Information dissemination	13
Collection and collation of information	9
Product development (guidelines; manual; methodologies; etc)	8
Provision of technical advice to WHO	6
Organization of events (e.g. conferences; summits)	4
Evaluation	2
Coordination of activities carried out by several institutions (e.g. other WHO collaborating centres)	1

WHOCC's nominate up to 3 specific subject areas that best describe their focus. Analysis of these subject areas reveals that most centres focus on nursing (n=42) and midwifery (n=20)

Table 3: WHOCC subject areas

Subject Area	Total
Nursing	42
Midwifery	20
Human resources for health (excluding Nursing)	9
Health systems research & development	9
Health promotion & education	9
Child & maternal health	3
Patient safety	3
Reproductive health (excluding HIV/AIDS)	2
Gender; Women & Health	2
Informatics and Telemedicine	1
Ageing	1
Emergency & humanitarian action	1

Analysis of the ToR's for each WHOCC was undertaken based on the specific focal areas of each centre's scope of work. Many individual themes were identified, and similar concepts were grouped together under broader thematic headings.

The following tables summarise the activities being undertaken by centres on each specific theme.
